ARTIFICIAL INTELLIGENCE WORKSHOP

Artificial Intelligence enabled tools will generate \$2.9 trillion in business value by 2021 in all kinds of workplaces from office work to agriculture. In order to play a part in moving ahead in this era of new technology, an Artificial Intelligence workshop was organised at Eastern Public School on 30th Dec 2018, to provide AI programming with python practical workshop for all age groups. Principal Mr. Javed Khan welcomed the AI Expert Mr. Prateek Mishra from Techsim Plus to give this valuable lecture. The event was organised by CAS Coordinator - Rizwan Jaffar and HOD ICT Department - Nazia Choudhary. Students from EPS and other schools had hands-on experience on Python programming, plus a review of AI given by Mr. Mishra related to his recent projects at Techsim. Moreover, parents also joined the event with their kids, seeing the prevalence of this field applicable in their daily lives. (By : Ramansh Sharma - Grade 12)

Our school organized an amazing picnic for my whole class . It was a bright sunny day on January 17th 2019, where all the students were excited to go for their much awaited picnic to the People's Mall. In the morning our whole class was full of hustle and bustle when the students of different sections were seen making their way towards their buses. While on the way, the students enjoyed in the bus and sang nasheeds energetically all the way long. We enjoyed our day to the fullest and created beautiful memories to be cherished for a long time to come. The picnic was a much needed break from our regular schedule in school and we made the best out of it. We would like to thank our PYP Coordinator Ms. Humera Riyaz for planning this picnic for us. HEALTH CAMP AT EPS

EPS aims to bring high quality in everything we do. As a part of our PYP Exhibition process, Grade 5 students chose "Health and Fitness" as one of the topics and inquired into it with sheer dedication and diligence. Their action was to bring a positive

change in society and make people aware of their Health and Fitness, so we organized a health camp in our school on 2nd January, 2019. The following team of doctors came from Olive hospital: 1) Dr. Syed Umair (Eye Specialist), 2) Dr. Wasif Naumaan (Physician), 3) Dr. Shanveer Siddiqui (Dentist). It was a productive event for our group as we came to know about dental hygiene, how to calculate BMI and how to keep our eyes healthy. It was well received and the whole PYP benefitted from it.

Annual Learning Fiesta 2018-19

Acquiring knowledge is not a complete empowerment in itself; at E.P. S., our entire team strives to develop each and every child into a complete human-being who learns to discover his/her full potential as an individual, a professional and as a member of the community he/she belongs to. Through events like 'Annual Learning Fiesta' which was organized on 13th Jan, 2019 our students develop and refine multiple skills and attitudes. The event is a reflection of their research, thinking, social, and self-management and communication skills.

EY Learning Fest 2018-19 showcased the collaborative efforts by the HRTs, Art Department, our housekeeping team and most precious, our 3 to 6 year old EPSites. A walk down the green and colorful world of 'Plants' –created and presented by K.G.II followed by an interesting and intriguing world of 'Visual Language' ' by K.G.I was a feast and treat to behold. And our youngest show stoppers, the Nursery contributed by sharing everything they have learned in the first year of their school life.

PYP Exhibition: The PYP Exhibition was all about the fifth graders working on global challenges and taking action. The 11 year old students worked on their fifth Unit of Inquiry 'Who We Are'. The students of grade five exhibited and demonstrated their research projects which offered the solutions to the problems dealing with various issues and suggested the actions taken to resolve the real life concerns. The event began with splendid stage performances by tiny tots of the school. Later, the Grade 5 students presented their learning on six major global challenges including Child Rights, Maintaining Health and Fitness, Bullying, Addiction, Food Adulteration and Food Wastage. The parents along with entire school faculty and students were the part of this exhibition. It was an overwhelming experience for the visitors as the students with much buoyancy and confidence interacted with them and explained each concept.

CAS Fair: During the amazing CAS Fairs students showcased their progress that they achieved through various extracurricular activities, and how it changed them as learners. Additionally, students of grade 11 found the CAS Fair a great opportunity to raise funds for Project Infaaq – an annual project aimed at providing food packets to the people of Abbas Nagar during the month of Ramadan. They set up engaging game stalls and food stalls that attracted hundreds of visitors. The profit that they gained from the stalls would then be added to the funds for Project Infaaq. Each CAS experience teaches students something new, and this one was no exception. As the CAS Fair was the first event organized almost entirely by our batch, we realized for the first time that organizing an event is no easy task. As one of the leaders of the organizing team, I am certain that the CAS Fair was indeed a very successful CAS Experience.

Makers Park: This year we introduced Makers Park displaying the research work of children. Parents were mesmerized after looking at research done by these budding scientists. The confidence of the children and their way of explaining their machines was appreciated by all. Projector, Wire maze, Makey -makey, Pulley, Bubble machine, Hydraulic Arm were some of the main attractions for the spectators. Makers Park was filled with an air of knowledge and inquiry.

PICNIC GRADE 4

School picnics are full of great fun. Just like our school friends and experiences we have during our school life, the memories of school picnics are also to be cherished for a lifetime. This year's picnic was destined to be at People's Mall on 21st Jan 2019. We all carried lip smacking food like cakes, wafers, fruits and what not. We enjoyed rides in Amusement park, had a train ride around the mall campus, played various sports then we moved to have food. Later, we went to gaming zone and enjoyed Sega Games. It was so much fun. My friends got tickets for playing well and they redeemed them for gifts. Some of my friends also went to Scary house and they were terrified like anything. At the end, our teachers gave us an ice-cream treat and we came back at the end of the day. It was a memorable experience.

from my pen

WINGS OF ASPIRATIONS

There is a world, a whole new world,
Out there waiting for u
Don't waste time, this precious time,
Is simply thinking what to do
You have come this far,
You are almost there
Don't close your eyes,
And lose sight
At the end of the tunnel,

You will find gods light
And then sing a song of victory,
of changing the course of history
It is a followed trend,
In a world where everyone is a
friend

MOTHERS MEET

Mothers hold their children's hands for a while but their hearts forever!

Working towards better bond between students, teachers & parents, the three very important stakeholders; Eastern Public School has been conducting the Mothers' Meet Session since last 5 years. Two sessions dated 8th Dec.'18 & 31st Dec.'18 were conducted in a row for the same purpose. The first session was focused on figuring the challenges mothers usually face followed by the second session in which we took up "Increasing Use of Screen by the children".

It was really special for the "Super Moms" as we successfully collaborated for the sake of our children. All the mothers left with a sense of satisfaction and gratefulness. We all promised to work together for the betterment of our children and our society inshaAllah. Looking forward to a more overwhelming response from our mothers in the upcoming sessions.

WINTER CAMP

The 'night out' winter camp was very well conducted and organized by Aslam sir for 2 days i.e. 29th and 30th December, 2018 in our beautiful school campus. The students were filled with excitement and fervor. On the first day when we arrived at the school we had an introductory session about the camp, after which we played football, cricket, etc. We also had a session on "Youth: The power of society" by Aslam sir. At night we had a barbecue & we cooked sumptuous food all on our own in the spine chilling weather. At the end of the day we watched a movie based on prophet's biography known as "The Message". On the next day we woke up for Fajr Salah followed by breakfast. Later we had a health training program. The camp was concluded with an interesting workshop on A.I. (Artificial Intelligence). The camp gave us some unforgettable memories and polished our core Islamic values too.
